

# Rising 11<sup>th</sup> Grade Course Request Worksheet

## 2019-2020 School Year

Student Name \_\_\_\_\_ Career Interest(s) \_\_\_\_\_

Contact Email & Phone # \_\_\_\_\_ Advisory Teacher: \_\_\_\_\_

\*English, Math, Science, and Social Studies course selections were based on student's current academic progress, grades, test scores, and teacher recommendations. Recommendations can be viewed in Aspen and will be discussed at your individual meeting with your counselor.

Check this box if you are interested in graduating early.

Check this box if you plan to waive your world language requirement. I understand that, in order to do so, I must complete two elective focus areas. I also am aware that not completing two credits of a world language in the same language could prevent me from being admitted to a four-year college or university.

Check this box if you plan on playing sports in college. I understand that it is my responsibility to register in the NCAA Eligibility Center and request courses that meet eligibility requirements.

Subject Area	Your Class	
Elective Focus Area Title (see handout)		Write the title of the Elective Focus Area you have chosen. The titles are written in <b>bold</b> on your handout. Remember, you must complete 3 courses in the same area by the time you graduate.
1. Elective Focus Course (see handout)		You must complete 3 courses in the same elective focus area. <b>IF</b> the courses are numbered, they must be taken in order, so take the next course in the sequence of your chosen elective focus.
2. Biology or Elective		Biology, Chemistry or Physics, and another science are required for graduation. If a science is not recommended for you, and you have not already completed the above requirements, choose a science (options on back). If you have completed those requirements, choose an elective.
3. Elective or World Language (see handout)		World Language (French or Spanish) is required if you haven't completed one yet. Choose an elective if you have met your World Language requirement or plan to waive it.
4. Elective or World Language (see handout)		2 <sup>nd</sup> Level of your chosen World Language required or choose an elective if you've already completed the World Language requirement or plan to waive it.
5. Fine Art or Elective (see handout)		If you do not have a fine art credit yet, please select a fine art class (visual art or music). If you are starting a new Elective Focus, consider taking the 2 <sup>nd</sup> course of your elective focus or PE if you have not taken it already.

**Alternate Elective Choices (in order of preference)**  
 Alternates will be used if your first choice electives are not available.

1 <sup>st</sup> Elective Alternate	
2 <sup>nd</sup> Elective Alternate	
3 <sup>rd</sup> Elective Alternate	
4 <sup>th</sup> Elective Alternate	

**Student Directions:**

- Elective Focus Areas can be found on the handout you received. The titles are written in **bold** at the top of each box.
- Print the course name clearly, and use only the course name listed on the back of this form.
- Fill in your electives and alternatives **in your order of preference**.
- Alternates must be different than your first choice electives (written in boxes 1-5 above).
- Your form must be complete (**including alternates**) in order to meet with your Counselor. Failure to select courses (including alternates) will result in the counselor selecting electives for you.
- A final course registration form will be sent home for your parents to view and sign. At that time, you will have one more opportunity to make changes. After that deadline, there will be no more changes permitted.
- After school begins in August, no schedule changes will be permitted unless there is an error interfering with a student's graduation plan. So, please be very thoughtful with your selections and mindful of deadlines.

**Mentor 2.0.** \_\_\_\_ Yes \_\_\_\_ No

Date of Counselor Meeting: \_\_\_\_\_

*I have reviewed my student's course requests worksheet and know that the schedule will be made based on these requests. I know that the schedule will not be changed unless there is an error in scheduling (use of an alternate does not constitute an error).*
