

## **Instrumental Music 9-12 | IM**

For Instrumental Music 9-12, the major work of the discipline falls within the Perform domain. Concepts covered in the Create, Connect, and Respond domains are accessible only after students are thoroughly versed in the fundamental skills necessary to perform on an instrument. Standards are specifically adapted towards the artistic processes by which people make music: Performing, Creating, Responding, and Connecting. The foundations within each artistic process propose an intended sequence of scaffolding skill levels as a means of developing students' competency.

Literacy in the instrumental music classroom is being able to read, write, and perform music. Just as the study of various languages promotes overall literacy, reading and writing musical notation, expressive markings, and harmonic structure unlocks new patterns of thought, exploring the analytical, mathematical, and linguistic centers of the mind. Musical literacy is decoding at its best. The language of music encompasses the senses of touch, sight, and hearing. These processes demand the student to balance their physical and intellectual actions and personal discipline in ways not explored in other academic areas.

The activity of instrumental music provides students opportunities for high and varied levels of critical thinking. Students of instrumental music develop a second written language and artistically-enhanced physical skills. They learn to work independently and within groups, as critical thinkers, problem solvers, and contributing members of a larger unit. Problem solving in the instrumental classroom is immediate and continuous as the music is being produced. Creative decision making, individually and in groups, results in final artistic products. Instrumental music instruction cultivates an individual who is capable of multi-tasking, managing time, working alone, and collaborating with others.

Finally, there is not an intentional pairing of grade level with ability level or mastery level. It is expected that some grade 11 or 12 students may be first-year ensemble members and/or at a musical level of HS1 or HS2; and an inverse situation may exist wherein a grade 9 student may be at a HS2 or HS3 level as a musician. Therefore, the standards are written for flexible application in high school choral and instrumental ensembles, wherein assigning musical or developmental level is at the discretion of the individual teacher.
